

ED-007 (Taurus Dome)

Dome Radius= 100.0 km, Average Population Density= 44.1 u/ km²,
Average Barometric Pressure= 97.6 kPa, Average Temperature= 281 K

14.1 km

- Functional Vending Machine and Companion Water Treatment Facility
- Republic of Mars Facility
- Resident Congregation
- Functional Airlock
- Procedural Anomaly
- Known Area of Electricity Deficiency

1: Republic of Mars Governing Facility. Established on 85013.8.

Building is used primarily as an installation to receive repair requests from inhabitants and to keep order.

2: Republic of Mars Mining Facility. Most of these facilities were commissioned on 83667.5. Mines were established to collect silicates, oxides, sulfates, and carbonates from beneath the planet's surface.

3: Crash Site of Unlicensed Vehicle. No results found in database.

4: Location of Francesca's Previous Headquarters. No results found in database.

5: Republic of Mars Energy Distribution Facility. Each construct provides electricity for 25% of ED-007. Specific energy delegation for The Grid is also done at these junctions.

6: HTM Self-Proclaimed Territory. No results found in database.
